## **NATURE UNLEASHED: LIBERATING LOCALLY**

***A Model for Nourishing Self, Spirit, Nature, Culture, Community***

***In Your Regional Backyard***

### **NATURE'S CALL FOR FREEDOM**

***We took a marriage vow to Nature when we were born and Nature is calling in the liberation chips***

This past year, I have pioneered using the **Tone of Liberation**, an inaudible Tone so profound that it shatters lower, impure vibrations and restores the primal pure connection to Spirit. Instantly, lost souls find their way. The Tone echoes down the highways and byways of our inner planes, shattering memories of past lives lived in suffering. It resounds through our bodies breaking atomic bonds that hold bodily suffering. It has its own Creation trajectory and destiny as **it confers Unleashed Liberation, wherever it goes.**

**During a recent gathering, the Tone of Liberation resounded through One Great Hoop** (an energetic structure anchored into the Southwest, where all cultures, lands, spiritual lineages, time epochs, and galactic and universal energies can cross pollinate allowing for resource sharing), **spreading freedom globally to many cultures, lands, and souls.**

**Yet, something unexpected and marvelous also happened in this alchemical marriage! Nature felt the resonance.** It awakened in her a hunger for this unmitigated connection to Liberation. **Local regions of Land stirred.**

Now **Nature beseeches us to impregnate her with this Tone...in our very own backyards.** Nature cries out for us to restore the soul to depleted Lands in our own communities and/or to re-fresh and revitalize the aliveness that is currently present. Nature propagates Life through the Earth grids and in so doing, keeps alive the culture of Humanity. **Nourishing Nature liberates Life. Life is what keeps the culture of Humanity alive. It's that simple, that deep, that profound.**

Liberation through Nature activates, energizes and regenerates Life on a moment to moment basis. **Liberation makes the Earth more alive, more sentient.** Liberation has the power to uplift and align the community collective. Nature's raw power harnesses its energy best when in alignment to its local community, when its sheer existence is drawn into the bosom of its residents. **We are being**

**called to reconcile our human species with Nature, no holds barred.**

**I will be presenting a model in these gatherings that you can take home and practically use in your home town and regional areas. You will learn how to form Local Hoops of Liberation and how to sustain them.** You will leave uplifted by the nourishment you have given yourself and Nature. **These local Nature Hoops vitalize your body, mind, soul and enrich the soil that feeds your food.**

**Make no mistake. You can change the world by changing your backyard.** Come and join me and the harnessed power of community as we DREAM into creation the future of Nature Unleashed. **If you have never attended a workshop with me, so much the better.** This will be a great opening as Nature and the collective have called this gathering. **And if you have attended some of my former gatherings, come prepared**

to spring open even further and be Liberated by Nature.
